

Andrei MAJIDIAN  
Serial No. 10/590,519  
January 26, 2009

**AMENDMENTS TO THE SPECIFICATION:**

**Page 1, line 3, delete “Field of the Invention” and insert the following heading and sub-heading:**

**BACKGROUND**

**1. Technical Field**

**Page 1, line 19, delete “Background to the Invention” and insert the following sub-heading:**

**2. Related Art**

**Page 2, line 22, delete “Summary of the Invention” and insert the following heading:**

**BRIEF SUMMARY**

**Page 4, line 31, delete “Brief description of the Figures” and insert the following heading:**

**BRIEF DESCRIPTION OF THE DRAWINGS**

Andrei MAJIDIAN  
Serial No. 10/590,519  
January 26, 2009

**Page 6, line 5, delete “Detailed Description of a First embodiment” and insert the following heading:**

**DETAILED DESCRIPTION OF EXEMPLARY EMBODIMENTS**

**Page 6, line 9, delete “Description of the User Terminal”**

**Page 10, line 8, delete “Transmitting Information”**

**Page 12, line 18, delete “How the Intermediate Structure is built”**

**Page 13, line 1, delete “The Intermediate Structure”**

**Page 13, line 23, delete “DOM tree”**

**Page 14, line 32, delete “Modularising schema design development”**

**Page 15, line 7, delete “An Example of Modularised Design and Development”**

Andrei MAJIDIAN  
Serial No. 10/590,519  
January 26, 2009

**Page 19, line 6, delete “Generation of DTD file from Intermediate Structure”**

**Page 19, line 21, delete “Pseudo-code”**

**Page 20, lines 22-23, delete “The pseudo-code for attribSection plus two auxiliary methods (getCurrentAttribLst and sortAttribute)” in its entirety**

**Page 20, line 29:**

let currentElm be the ith ~~element~~ element of listoflist

**Page 22, line 1:**

if (attribList does not ~~contains~~ contain the kth element of the aNode)

**Page 22, line 17, delete “An example of how the algorithm works”**

**Page 23, line 30, delete “Mathematical Notion”**
